2 players

Object
Be the last player able to move.

Equipment
1 piecepack

Setup
1. Place the tiles face-up so they make a 6x4 board, each player sits at one end.
2. Each player chooses a pawn and puts it on the third tile from the left.
3. The coins are gathered as a common stash.

Play
Players alternate turns.
   1. Move pawn.
      a. Pawns move as knights in chess. (Move two tiles in one direction, then one tile at a right angle to the initial direction.)
      b. Pawns can only move to unoccupied tiles, without coins or another pawn.
   2. Place a coin on the tile that the pawn started this move on.

Winning
The last player to make a move wins.

Variations
For an added challenge, instead of moving horizontally and vertically move diagonally. (Move two tiles diagonally one direction, then one tile at a right angle to the initial direction.)
